
My NASA Data - Interactive Models

Cloud Sort Activity

Grade Band

- 3-5
- 6-8

Time

- > 90 minutes

Directions

Explore the classification and naming of clouds based on word roots and prefixes. Practice sorting and naming clouds in the following ways:

- Based on altitude
- Based on type
- Multiple cloud types in a sky scene

Review mapped data to determine the types of clouds that could be represented in the images.

Procedure:

1. Open the [Cloud Sort Activity](#) slide deck.
2. Use the slides in "edit" mode so you can move items on the screen.
3. Read the content and follow the directions to match pictures and names by dragging and dropping.
4. Submit results as directed by your instructor.

Teacher Note

Teachers who are interested in receiving the answer key, please complete the [Teacher Key Request and Verification Form](#). We verify that requestors are teachers prior to sending access to the answer keys as we've had many students try to pass as teachers to gain access.
