

## **Aurora Chalk Art**

Create your own artwork inspired by the northern lights!

## **Materials Needed:**

Aurora stencil (or draw your own), black paper, colored chalk, scissors. *Optional:* Tissues.

## Instructions:

**Step 1:** Cut out the aurora stencil. If making your own, cut a strip of white paper or cardstock in a wavy aurora shape.

**Step 3:** Place the colored stencil on your black paper, chalk side up. Smudge the chalk onto the black paper using your finger or a tissue.

**Step 4:** Repeat using different colors to fill the sky with the colors of the aurora.

**Step 5:** Add a cabin, trees, campfires, or other things you might see under the northern lights. Be creative!
